2 credit

LEE, Youngsook

1. Course Description

This course aims to bring the students, into a close relationship with the local community by cooperating with social enterprises or non-profit organizations (NPOs) in the local areas near the University. This course will present a series lectures by the presidents/staff of local social enterprises/NPOs. They are in charge lectures twice for enough discussion. After every lecture, students will be given an assignment for discussion. This course prepares students for the “Training on Social Business” course offered the next semester.
