2 credit

KOSUGE, Eisyu

1. Course Description

In this course, we overview the Japanese economy that experienced high growth and subsequent stagnation, and Japanese corporate management that survived in those circumstances.

This lecture is conducted in English, while discussing on the basic concepts of economics, overviewing the Japanese economy and Japanese business management and expanding knowledge further to the challenges of the current Japanese economy and corporate management.

Initially, classes will focus on lectures, but while considering the progress of fundamental understanding, we may have the sessions of discussions and presentations as appropriate.
