

Workshop in Liberal Arts : Special Seminar III

Syllabus Number

CAE-401

Elective

2 credit

WAKAYAMA, Noboru

1. Course Description

The principal object of this course is to cultivate the intelligence of liberal arts focusing on Logical Reasoning, Quantitative Reasoning and Data Interpretation. As a university graduate, students are expected to be equipped with these intelligent skills. These abilities are necessary for students to find jobs after graduation.

This course aims to acquire the knowledge of the way to think, to analyse, and to rationalize.
