

Information Technology Foundation for Libraries

Syllabus Number

LIH-102

Librarians' Program

Elective 2 credit

MIYATA, Yosuke

1. Course Description

Due to the spread of computers and the progress of the Internet, modern information environments are rapidly changing. Under such circumstances, it is indispensable to acquire knowledge on information systems and information technologies even in the work of libraries. In this course, various information systems and information technologies surrounding libraries such as databases, search engines, electronic materials, etc are introduced.
