## 1. Course Description

It is easy to explain the reasons for success after we see the success, but building a general theory of how to succeed is difficult in advance. On the other hand, it is easy to find common ways to fail. In this seminar, we will learn a "failure rule " entitled "Corporate management based on cases of failure.&quot:

In spring, we read "Where do people and businesses make a mistake? Equot; and participants will have a report in turn.
