

Seminar I

Syllabus Number

SEM-301

Compulsory 2
credit

FURUUCHI, Hiroyuki

1. Course Description

This course is the practice I for reading the book deeply. It aims to not only to read the book, but also to read the world through the book. The true charm of reading lies in the latter. Its theme is the European sovereign crises (and the crisis in Euro). Let us develop the social scientific thought in cooperation with the realities of daily lives.
