

Critical Thinking IV

Syllabus Number SEM-204
Elective 2 credit
WAKAYAMA, Noboru

1. Course Description

The principal object of this course is to grasp both the method and the practice of critical thinking. Critical thinking is indispensable for students in information society. As this critical thinking ability is extremely important, the entrance examinations of law schools deal with it as well. The topic includes Deduction, Induction, Logic Trap, Classification, MECE, Logic tree, Framework Approach, Problem Finding and Problem Solving.
