

国際経済入門Ⅰ

Syllabus Number

ECP-103

Compulsory Elective
2 credit

SUZUKI, Taku

1. Course Description

In this course, we will study the various major topics on international economics at fundamental level. In the first half, we will study major themes ranging from standard economic ones such as trade and finance to problems in the political economy. In the latter half, we will explore the economies of countries and regions that play an important role in modern international economy, for instance, the United States, Japan, and China.
