## 1. Course Description

This course deals with the basic concepts and principles of death and life studies. The goals of this course are to obtain basic knowledge about contemporary social problems related to death and dying (e.g. abortion, brain death, euthanasia, antinatalism, capital punishment) and to have students have an opinion about these problems of their own.

Students are expected to attend all of the course. Please note that a student can be expelled from the course, when s/he disturbs other students who would like to listen to the lecture.
