

Teaching Method for Persons with Intellectual Disabilities

Syllabus Number

SNE-301

Elective

2 credit

KANDA, Motoshi

1. Course Description

Focusing on teaching for students with intellectual disabilities, as well as students who are physically and mentally disabled, we will learn about actual teaching methods employed in special needs education. In class, we will watch video footage showing teaching and the development of teaching materials, create and present some original teaching tools, and analyze materials used in art and craft lessons, thereby learning the basics about teachers in special needs schools.
