

Social Survey Practical II

Syllabus Number

STS-302

Compulsory Elective
2 credit

KAMIYAMA, Hideki

1. Course Description

This course follows from Social Research Practice 1, and aims to give students practice conducting actual social research while applying the knowledge they have acquired in their other social research related courses. In this course, students will use the statistical software program SPSS for analyzing collected data and formulating a report. Only students who have already earned credits for Social Research Practice 1 are eligible to take this course.
