

Teaching Methods : Home Economics

Syllabus Number

ESS-311

Elective

2 credit

KATSUTA, Eiko

1. Course Description

Focusing on the elementary school Home Economics, we will take a practical method based on the special characteristics of the subject and the methods as to how to teach the subject.

We will aim to gain a greater understanding of the perception of an academic achievement by teaching materials and teaching in HE. First, we will learn about the origins of and the changes in the subject, as well as the areas and content which it covers.

Then we will take a practical look at the lesson and teaching planning, and practice the lesson and lesson research as well as the lesson analysis and assessment.
