

Special Seminar on Psychology of Learning

Elective 2 credit
MOCHIZUKI, Kaname

1. Course Description

This is a graduate seminar with reading and discussion about the empirical articles on the Experimental Analysis of Behavior (EAB) and Applied Behavior Analysis (ABA). The goal of this course is to think about the historical and current issues in EAB and / or ABA. Each student will be required to work in teams on class presentation, attendance in class and active participation.
