2 credit

MIYATA, Jun

1. Course Description

This lecture course for college student, we study history of contemporary Japanese economy. The coverage period is from the stable growth period (1973-1985) to the period of the era of structural adjustment (1986-). And what is more, students must make good preparations and review what was learned. The contents of this class will help students to obtain a complete view of historical transition shaped by economic activity of Japanese. We must absorb a wider view for economics, routine economical information, current and future prospective of economic activity of mankind.
