

Introduction to Early Childhood Education and Care

Syllabus Number

ESS-104

Elective

2 credit

YOSHIDA, Kumi

1. Course Description

Understand the significance of nursery and learn about the contents written in the nursery school nursery guidelines, kindergarten education guidelines and kindergarten nursery school cooperative certified children's educational guidelines. After learning about the content and method of childcare, historical change and thought, we aim at learning the theoretical foundation necessary for childcare and early childhood education by considering the present condition of childcare and issues. Work on various teaching materials and tasks to understand children and childcare, and have motivation and interest.
