

Theory of Student Guidance and Career Guidance(Junior and Senior high schools)

Syllabus Number

ESS-303

Elective

2 credit

SUGISAKA, Ikuko

1. Course Description

1 Outline of this class

Student guidance and career guidance both have a common purpose that they encourage students to improve their characters. Because the social environment has been rapidly changing, student guidance and career guidance are varied a lot and very complex . Therefore, in this class, students learn useful and practical ideas by discussing various examples after they learn knowledge and theories.

2 Aim of this class

The purpose of student guidance is not only to deal with problematic behavior of students. Career guidance is not only to aim at going to upper schools, universities, or companies. Students learn to understand student guidance and career guidance correctly and acquire basic skills to use them at school.
