

Economic Policy II

Syllabus Number

ECP-210

Elective

2 credit

TOMITA, Hideaki

1. Course Description

We have many kinds of economic policies by government and central bank, e.g. macro fiscal and monetary policies, protective trade policies and industrial policies. This course aims to learn basis of valuation of economic policies, and to evaluate actual economic policies. The aim of autumn course mainly evaluates macro fiscal-monetary policies and expanding budget deficit.
