

Mind-Body Development and Its Relation to Learning Process (Preschools and Elementary Schools)

Syllabus Number

EDU-123

Elective

2 credit

SUGIMOTO, Mariko

1. Course Description

The aim of the course is to understand the development process of the human mind and body from infant to adolescent, as well as the process of learning during the same period. All teachers are required to provide education which matches well to the development stage of each child. Referring to the records of implemented cases, we develop appropriate education methods in accordance with the characteristics of each stage of a child's development. Finally, we will take a look at the theory to induce motivated learning.
