

Macro-social Psychology

Syllabus Number

SOP-202

Elective

2 credit

SHIKISHIMA, Chizuru

1. Course Description

We know that people can be both conservative and liberal; we also know that some are altruistic and others egoistic. Likewise, it is easy to think of those who can get along with others, as well as those who tend toward being disagreeable. What causes such diversity? The goal of this course is to understand the mechanism of human social behavior from a broad perspective using recent approaches based on evolutionary psychology and culture psychology.
