1. Course Description

This class is aimed at practicing Korean conversation for the second-grade students. The purpose of this class is to indirectly experience Korean culture and daily life by learning the most frequently used phrases and to make it possible to use proper phrases in actual situation. By using diverse sample sentences and dialogues based on various circumstances and themes, students learn how those are used in actual conversation. "Korean conversation V" and "Korean conversation VI" are linked classes and the former focuses on mainly learning about the meaning of idioms and expressions, while the latter does on memorizing conversation sentences focusing on relevant phrases and related expressions.
