

# Theory of Student Guidance and Career Guidance(Junior and Senior high schools)

Syllabus Number

ESS-303

Elective

2 credit

MAEJIMA, Masaaki

## 1. Course Description

Student guidance is one of the important functions to achieve school education goals. It is an educational activity that promotes the development of individuality and social development of each student and helps self-realization. Learn the theory and practice of student guidance. (1) The theory of tailoring student guidance based on individual student needs. (2) Changes in student guidance. (3) Guidance on problematic behavior (bullying, refusal to attend school, school violence, etc.) (4) Changes in thinking and practice of career guidance (career education). In the class, case analysis and debate will be required, and the content will be practical.
