

History of Regional Culture II

Syllabus Number

JPH-202

Museologist Program

Elective 2 credit

SAEKI, Tomohiro

1. Course Description

You can learn about the local history and culture through knowing about the traditional events and festivals by this class. The traditional events, festivals and performing arts left in each region are very important because we who live in the present age can connect to the local history and culture by them. I will select one traditional event or one festival and give a lecture on its history at every lesson.
