

Asian Economy I

Syllabus Number

ECP-305

Elective

2 credit

1. Course Description

This course will put a focus on East Asia which is deeply connected economically to Japan. Entering the 21st century, movement of the economic integration in this area is accelerated rapidly. Each country makes an effort remarkably to build a mega FTA in this area.

Under such an economic circumstance, it is very important to understand deeply the characteristics of each country's economy and their interdependences.

In this course we will study those matters described.
