## 1. Course Description

Students will be presented with a summary of the topics they are interested in and those they wish to gain further understanding. For example, health and physical education, athletic club activities, and efforts to improve children's physical strength. Based on their contents, all the participants will have discussion, organize their results and problems, and think about measures to improve school physical education. Through these activities, students will deepen their understanding of school physical education and learn how to make presentations and debates.
