1. Course Description

This is the qualification program to take the exam for professional psychologist. This practicum program offers each student the opportunity to have practical experiences of working as a probational clinical psychologist at one field either in welfare or education. Students are expected to gain the knowledge about the basics of psychological services, develop the clinical skills required, and learn from the professional conferences in/between psychologists and others, under the supervision by both of a staff member of each facility and a faculty.
