credit

AKABORI, Hiroyuki・ARAMAKI, Keiko

1. Course Description

I overlook the problem that positioning of the school education in the society, a role, school education of the school education have and deepen understanding and am based on significance of the teaching profession and study the way of the new school education and aim at upbringing of the ability for nature of the teacher who can plan the solution of the education problem.

By this class, I ask "what is it with the role of the school?" some other time. Therefore I enlarge the field of vision and investigate our country and foreign countries (around two countries) and examine a trend of a change and the
