2

credit

FUJIMORI, Hiroko

## 1. Course Description

According to a survey conducted in 2018 by the Japan Foundation, the Japanese language is being taught in 142 countries and regions throughout the world. In this course, we will learn examine the nature of Japanese-language education in the Asian region, as well as consider the potential need for people to adapt to a multi-linguistic and multi-cultural environment as migration across the region increases.
