

Observation Practices

Syllabus Number

EDU-211

Elective 2 credit

MORI, Ippei·OBITSU, Shigetaka

1. Course Description

In this course, students will observe actual class lessons in an elementary school and record field notes. After learning how to practice lessons in the elementary school level, students will co-operatively try to reflect this observation on this university course. The aim and emphasis of this observatory course is to link theory and practice.
