

Basic Research in Psychology I

Syllabus Number

SEM-201

Compulsory 2
credit

MOCHIZUKI, Kaname

1. Course Description

This is a introductory seminar with reading and discussion about the empirical articles on the Experimental Analysis of Behavior (EAB). The goal of this course is to familiarize students with the research topics and the basic methods in EAB and Applied Behavior Analysis (ABA). Each student will be required to work in teams on class presentation, attendance in class and active participation.
