

観光学実習(エコツーリズム) II

Syllabus Number

TOS-204

Elective

2 credit

IIZUKA, Ryo

1. Course Description

The aim of this practice is to learn about tourism studies using more close, wide, and active approaches to the study; thus, this practice brings in outside lecturers. The students need to understand various problems and think about their solutions. We will try to experience them through lectures from local staff and make several suggestions for the tourist destination. Students need to bring voluntary and creative attitudes to this project-based learning practice.
