

比較地域学方法論 II

TSUTSUI, Yu Elective 2 credit

1. Course Description

The objective of this course is to understand regional geography study methods, and to obtain wide knowledge of the United States of America, India, the Commonwealth of Australia, and Central Asia. By the end of this semester, students should be able to explain regional characteristics of each country or region from several viewpoints: for example, nature, culture, economy, population, and so on.
