1. Course Description

1. Course Aims

I instruct a student in basic knowledge and skill of Art education. Students learn "target", "contents", "way", "history", "teacher", "teaching materials", "curriculum", "various Art education", "various Art", etc. in Art education. Students would make a curriculum and a plan of guidance. And students would put on the knowledge and the skill useful for actual education. Art education is learned through various material and production at this session. It's important to feel the created pleasure to learn Art education.
