[I] Elective 2
credit

MORI, Reina

1. Course Description

This class aims to provide students with the basic fundamentals necessary to understand the significance of learning at a university and the differences between learning at elementary, junior high, and high schools, and to become people who can continue to learn on their own throughout their lives, even after entering society. The goal of this class is for students to acquire the basic fundamentals necessary to become people who can continue to learn on their own throughout their lives, even after entering society. The maximum number of students per class is 30, and the target grades are 1st and 2nd year students (1st year students will be given priority if the number exceeds the limit). Please note that a lottery will be held. For those of you who want to enrich your learning in a university setting, let's start together.
