

## 個が生きる学級集団づくりと実践研究

Elective 2 credit

SUZUKI, Yasuyoshi・  
IGARASHI, Yoshiyuki

### 1. Course Description

This class is lectured by the two teachers (the team teaching).

The graduate students need to acquire the technical knowledge and the education technology to make the class something significant educational for children.

The graduate students learn about the desirable state of individual(ko)and group (shudan) from a document and a practice case in a forward school, think about the problems of classroom group making on the basis of consideration to today's reality of the children and growing environment, deepen a study about theoretical knowledge and a practicing skill and cultivate the class management ability to make a class stable.
