1. Course Description

This course is designed for TOEIC beginners who now score 350-400, roughly speaking, or who have passed STEP (=Society for Testing English Proficiency) pre-2nd Grade Test. In the Autumn Semester, we will tackle with PART 3 & 4 (Conversations and Talks) by concentrating on the necessary information, and Part 6 & 7 (Text Completion and Single/Multiple Passages) by getting used to speed reading rather than trying to fully understand the passages. We aim to reach the 450-500 score level by the end of the semester.
