

Introduction to Financial Planning I

Syllabus Number

MOF-203

Elective

2 credit

KOMATSU, Eiji

1. Course Description

In our country, money education is not performed in the school. However, in present-day social life, knowledge, such as a pension, a social security system called health insurance, a financial transaction, insurance, a taxation system, and residential house acquisition, is required.

In this lecture, the knowledge of the level of the 3rd class FP consultant engineer qualification of a state examination is mastered by the end of a lecture.
