

美術史・文化遺産実習3－Ⅳ

Syllabus Number FAH-406

Compulsory Elective
2 credit

KANAI, Takuto・HATA, Taisuke・
FUJISAWA, Akira・
UETSUKI, Manabu・MIURA, Maiko

1. Course Description

In this class, we will learn research methods and preservation methods suitable for each cultural property by investigating cultural properties from a scientific point of view. We will learn the basics of more practical science research of cultural property using a large-scale analyzer installed at the Research Institute of Cultural Properties. In addition, we will learn about the utilization of cultural heritage through tours of local cultural properties.
