

Indian Economy I

Syllabus Number

ECP-313

Elective

2 credit

ISHIKAWA, Masashi

1. Course Description

India, who has the 2nd largest population in the world is reviewed from various aspects in this course. As BRICs country, its economy achieved significant growth till 2018 under Narendra Modi administration but has started getting stagnant despite its land-slide victory in general election in 2019. In this movement, some major industries are analyzed for expected future growth. In addition to these economic issues, its history, culture, geography, politics and religion will be also explained to understand India more comprehensively.
