Curriculum Studies

Syllabus Number ESS-202
Elective 2 credit
SUGISAKA, Ikuko

1. Course Description

1. Course Description
The curriculum is the basic education plan for carrying out school educational activities.
In this course, students will learn the basic theory of core curriculum in a school on the basis of Courses of Study, as broad standards for all schools.
In addition, students will learn about the new Courses of Study and how to organize curricula to attain educational goals.
