

心理学研究演習Ⅲ

Syllabus Number

SEM-401

Compulsory 2
credit

INADA, Naoko

1. Course Description

Psychology is the scientific study of thoughts, feelings, and behaviors. In this class, you will learn the critical skills to evaluate others' research and conduct your own scientific research in psychology. This class is very important because you will learn how to conduct research about behavior and arrive at those conclusions, and how to think like a psychologist.
