CLI-401

Elective 2 credit

KONDO, Kiyomi・YUN, Seongsu

1. Course Description

In this practice, we will visit to the facilities of all five areas in which certified psychologists works in order to learn how the certified psychologists offer psychological assessment and interventions and corroborate with other professionals. In spring semester, we will visit a school as educational area for four days to learn communication with teachers and staffs and psychological supports for children's special needs. We also conduct on-site visit to a hospital as medical area.
