1. Course Description

In this seminar, we study political science, politics of India and other South Asian countries, and international relations in South Asia. In the autumn semester, each participant of this seminar selects his/her own research topic. After his/her own study on that topic and the discussion with other participants in the seminar, each participant completes a research paper at the end of the semester. Depending on the progress of each participant's research, we also do book reviewing as an exercise in the same way as the spring semester.
