

Industry and Enterprise Research I

Syllabus Number

MAN-313

Elective

2 credit

YOSHIMURA, Kohei

1. Course Description

The purpose is to conduct corporate research from three perspectives: the "past" from a historical perspective on the growth of Japanese industry, the "present" based on the economic environment due to economic trends, and the "future" that expects further evolution of the digital society. In addition, in "Industry / Company Research I", the goal is to increase motivation toward "Job Hunting" by learning the mechanism of the industry that supports the industry from the third graders who will start "Job Hunting"
