

Macroeconomics I

Syllabus Number ECT-203
Elective 2 credit
TSUYUGUCHI, Yosuke

1. Course Description

How the important macroeconomic factors like GDP growth, inflation and deflation change and how policy authorities react to these changes are explained in this course. By learning these matters, you will be able to respond to a variety of changes of macroeconomic situations.

The course introduces the following topics: (1) basic knowledge of macroeconomic statistics, (2) saving, consumption and investment, (3) functions of money and financial markets.
