

Social Security Studies

Syllabus Number

SWS-203

Elective

2 credit

LEE, Youngsook

1. Course Description

The social security system may have an image of being complicated and difficult to understand, but it is an inseparable part of our lives. Who are the targets of the social security system, what are its benefits, where do the financial resources come from, and who manages the system? In this class, we will learn about the history, functions, and systems of social security while examining its structure.
