

Historical Geography II

Syllabus Number HUG-204
Elective 2 credit
NOGUCHI, Takeshi

1. Course Description

This course aims to consider how to grasp the geographical phenomena, using the historical materials. In class, students will be required to read the textbook about Kyoto precisely and make a brief paper. So it is necessary for each student to bring the atlas which he or she used in the class of the high school. In addition, students have to complete some assignments in this semester. Grades will be based on regular attendance, completion of the assignments and periodic examination. I hope students participate in this class after they have already learnt Historical Geography I.
