

Introduction to Microeconomics I

Syllabus Number

ECT-101

Compulsory Elective
2 credit

HORIUCHI, Eiji

1. Course Description

This course provides an introduction to key concepts of microeconomics. In Part I, we deal with the tools of supply and demand, the concepts of consumer and producer surplus, and the role of the elasticity of supply and demand. We then apply those tools to examine today's microeconomic problems and international trade policy.
