

Seminar : Japanese Culture(Calligraphy and Education) I

Syllabus Number

JLT-313

Compulsory Elective
2 credit

FUKUI, Junya

1. Course Description

Each participant is asked to research an issue of interest to him or her and to present and report freely.

You are free to choose any topic as long as it has a connection to the culture and education of the written word. Advice on how to research and summarize literature for presentations will be given in class, so students who will be presenting for the first time are welcome to do so. Students will be asked to give one report and submit a report at the end of the class. Especially for students who will be presenting for the first time, I would like to individually instruct them from the basics such as how to choose a theme, how to gather and research materials, and how to prepare a resume.
