

Fire Prevention Administration IV

Law and

Syllabus Number

LAW-204

Elective

2 credit

SAITO, Kazufumi

1. Course Description

This lecture introduces students to the relations between the standard of the fire protection equipment and the buildings. The fire prevention protects our lives and the properties, and plays an important role in firefighting service. Each class focuses on the importance of the fire protection equipment regulation based on the examples, such as the sprinkler and the automatic fire alarm.
