1. Course Description

This course is designed to introduce major topics of International Finance since 1970's. This course mainly focuses on several topics such as, developing countries' accumulated debt problems, the Euro Currency Crisis, the Asian Financial Crisis, and the Global and Financial Crisis in 2008. Students are expected to take care of daily news of international economy and study the factors of these problems by using the idea of this course. Students will be able to improve their skills by solving self exercise and homework with LMS.
